

Talk at the 3rd European DOE User Meeting in Lucerne "State-of-the-Art Software Tools for DOE"

(06.01.2010 – 11:55 by Mark Anderson, (Stat-Ease, Inc.)

Abstract

This talk will introduce an array of statistical methods for design of experiments (DOE) made easy and more powerful via version 8 of Design-Expert software. It highlights key features from simple to sublime, ranging from factorials through response surface methods (RSM) to mixture design.

3rd European DOE User Meeting
